

OEC MONITOR UPGRADE

Extend the life of OEC 9800, 2800, 6800 or 8800 workstations with a High Definition LED Touchscreen Display

Simple installation in an hour or less

Guaranteed to meet or exceed original factory specifications!

This new monitor replacement is an exceptional alternative to the soon-to-be-unavailable CRT monitors on GE OEC workstations.

The high definition LED flat screen provides all the resolution and functionality you expect at an affordable price.

“This monitor package is the lowest price turn-key solution on the market today.”

Installation is easy

The monitor upgrade package includes:

- Touchscreen high resolution LED display
- New monitor bezel
- Mounting plates
- Step-by-step installation instructions

Approved for all medical safety standards
FDA registered

Two year full replacement warranty
